

# INSPEKTEC illuminating magnifiers:

A complete line of illuminated magnifiers for daily use by professionals like you.

Our products are made of high quality materials. The lenses applied are made of high quality optical glass, for distortion-free work and to avoid fatigue of your eyes. Our lenses are of class 3 and 5 dioptr, which gives you a real magnification of respectively 175 and 225%. And as a special feature all our bench-top illuminated magnifiers are equipped with a 25, 50, 75 and 100% dimmer function. A great feature especially for an optimized working environment.

Our LED light sources are specified as 6000K colour code, which is known as full spectrum “daylight”. This gives you the most natural colours as a result.

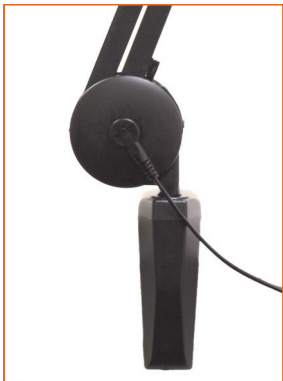

Unlike others, all of our products are specially designed for the professional end-user in the electronics industry.

Therefore all our magnifiers are manufactured with an antistatic coating (ESD safe) as standard. This option is quite unique and often very expensive.

Our products have been optimized to be compliant with IEC-61340. This way we enable you to keep your environment ESD safe at a competitive price.

Also choose InspekTec, backed by a 2-year warranty.

*guaranteed ESD safe  
because of unique  
extra grounding  
connections  
on our new  
magnifier models*

*including 3x  
14W lamp*

*no “flickering effect”  
because of electronic ballast*

## IN1500ESD WORK LIGHT

€ 115,-

### Specifications:

Maximum reach	+/- 95cm
Dimensions	610x110mm
Lighting	3x14W, 6000K
Fixation	table clamp (incl.)
Colour	black, ESD

## IN2400ESD MAGNIFIER

€ 99,-

### Specifications:

Maximum reach	+/- 95cm
Magnification	3D / 175%
Lens size	125mm Ø
Lighting	60led's, 14W, 6000K
Fixation	table clamp (incl.)
Colour	black, ESD

*5 dioptr = 225% lens  
available as option*

*5 dioptr = 225% lens  
available as option*

## IN3400ESD MAGNIFIER

€ 135,-

### Specifications:

Maximum reach	+/- 95cm
Magnification	3D / 175%
Lens size	180mm Ø
Lighting	84led's, 16W, 6000K
Fixation	table clamp (incl.)
Colour	black, ESD

## IN4400ESD MAGNIFIER

€ 135,-

### Specifications:

Maximum reach	+/- 95cm
Magnification	3D / 175%
Lens size	155x190mm
Lighting	60led's, 14W, 6000K
Fixation	table clamp (incl.)
Colour	black, ESD

## ACCESSORIES

**IN1000ESD**

Mobile stand on 5 castors,  
80cm height, 60cm diameter

€ 89,-

**IN1010ESD**

Table Bracket for all models  
extra strong, max. width 65mm Ø

€ 15,-

**IN1020ESD**

Table Mount for screw-on  
table-top application, 65mm Ø

€ 7,50

displayed in real size

## PORTABLE MAGNIFIER

**IN1200ESD**

€ 39,-

### Specifications:

Dimensions	190x80x25mm
Magnification	5D / 225%
Lens size	60mm Ø
Lighting	5 x LED + 1 UV
Battery	2 x AAA (incl.)
Colour	black, ESD
